Valley Public Kindergarten has a five-member advisory committee composed of distinguished personalities as well as subject matter experts in education, social science and child psychology. We thank them for being available to the center to advise and guide the center to the right direction. Moreover, the center is privileged to have received complete support from Valley Public H.S. School and its entire team. This inter-institutional interaction will help your child be educated via the tested-and-proven approaches.

Valley Public Kindergarten
A Complete Montessori School

Valley Public Kindergarten is a full-fledged Montessori school, located in a truly peaceful, pollution-free and beautiful location of Kathmandu at Pasikot, Budhanilkanth-5. As a part of Valley Public H.S. School, Sundarbasti, Bhangal, we are solely focused on imparting the best quality education to the children of lower ages through modern and advanced Montessori teaching-learning methods. Among others, our major objective is to help children develop social, linguistic and interactive skills to prepare themselves for tougher academic and non-academic challenges as they grow.

Valley Public Kindergarten is an outcome of the successful completion of Valley Public H.S. School’s 21st years of contribution in preparing the best of country’s human resources. Therefore, we assure all of you that Valley Public Kindergarten is the institution to entrust for your child’s early-life all-round development.

Valley Public Kindergarten is a standard pre-school for children up to/around the age five. We strongly believe in letting children learn various skills by engaging them in fun-filled activities. We never miss to offer our parents a chance to see their child take strides towards teen age with a new level of confidence and awareness about themselves and the world around them. We aim at providing them with a strong foundation for proper growth and opportunity to develop self-confidence and responsibility through active participation in life-like learning environment. We felicitate children to grow and learn rather than support them as surrogate parents. Supported by custom-designed, hygienic and spacious classrooms and labs, along with a wide outdoor playground, your child won’t just learn but remain happy, healthy and safe. Our classrooms, labs and premises are always open for parents to come and see for themselves.

OBJECTIVES

The aims and objectives of Valley Public Kindergarten are:
- To provide the early-age children with a pre-school education through the implementation of integrated teaching methodology based on early-childhood education system and Montessori teaching methodology
- To provide an excellent atmosphere for children to socialize and learn moral values
- To provide children with a safe and secured environment for the development of their self-confidence and habit to take up and overcome challenges in future
- To prepare children for an enthusiastic primary school enrollment
- To teach them to adjust and adapt their growth into young individuals
- To provide children with an opportunity to participate in an inclusive environment of mutual sharing and support
- To teach the importance of true team spirit in a game, work or elsewhere while understanding and celebrating their core individual values
- To cultivate a spirit of positive thinking and ‘can-do’ attitude from an early age
- To inspire and motivate to develop good, productive and tolerant habits while keeping discipline at the center
- To incur a deep regard for family, social and cultural values while respecting other’s freedom be different
- To provide ample opportunity to learn life-skills and maintain physical and mental soundness through abundant of co- and extra-curricular activities

STAFF

The staff at Valley Public Kindergarten is most carefully selected through a rigorous recruitment process. The sole aim behind this is to ensure the most efficient and competent professionals for your child’s second home. Such a team of qualified professionals provides them with everything they need for their academic, personal and social growth. The staff at VPK represent a broad range of cultural backgrounds and foster a collaborative spirit when designing courses and activities for individual child by establishing a two-way communication with parents and guardians. The center’s regular team is assisted oftentimes by a relief and part-time staff along with regular cleaner, handy person and gardener.
